

GCC-STAT Experience in Building Mobile Application Utilizing the SDMX API to Dynamically Update and Display Data

Yaqoob Al-Hadhrami, GCC-Stat, Muscat, Sultanate of Oman
yalhadhrami@gccstat.org

1. Data Management

- Real-time Data & Metadata Updates
- Dataset Categorization
- Ease of Addition & Deletion
- SDMX Artefacts Creation

2. Interoperability

- Multi-System Compatibility (JSON, ETL, etc.)
- Standardized Data Exchange

3. User Empowerment

- Empowering Statisticians
- Minimal Technical Requirements
- User Personalization
- Efficient Data Filtering
- Data Behaviors Management
